****Missing Keywords:**** N/A

****Profile Summary:****

This resume showcases the skills and experiences of Anubhav Raj, a recent graduate with a strong foundation in UI/UX design and frontend development. While the resume is not tailored to a specific job description, it highlights the candidate's proficiency in user research, user persona targeting, wireframing, prototyping, and other key design principles.

****Recommendations for Improvement:****

To enhance the effectiveness of the resume, the following suggestions are recommended:

ATS Evaluation

- * **Tailor to Specific Job Descriptions:** Customize the resume to match the requirements of the target job description. This will highlight the most relevant skills and experiences for the specific role.
- * **Showcase Relevant Experience:** Quantify and elaborate on relevant design projects or initiatives to demonstrate the impact and outcomes of your work.
- * **Emphasize Technical Skills:** Include specific examples and quantifiable results that showcase your proficiency in Java, React Native, UI Design, Figma, and MIRO.
- * **Consider a Portfolio:** Create a portfolio that showcases your design work, prototypes, and case studies to provide a tangible demonstration of your abilities.
- * **Proofread Carefully:** Ensure the resume is free of any errors in grammar, spelling, or formatting that could detract from the candidate's presentation.

Suitable Job Roles:

Based on the provided information, Anubhav Raj would be a suitable candidate for the following roles:

- * UI/UX Designer
- * Frontend Developer
- * Design Engineer
- * Interaction Designer
- * UX Researcher
