

ATS Evaluation

Evaluation

****JD Match:**** 70%

****Strengths:****

- Strong technical skills in web development, including HTML, CSS, JavaScript, Python, and Flutter.
- Experience in developing and designing user-friendly interfaces (UI/UX).
- Knowledge of database management systems (DBMS) such as MySQL and MongoDB.
- Familiarity with cloud computing platforms like AWS.
- Experience in using design tools like Adobe XD and Figma.
- Practical experience in working on real-world projects, such as FoodBuddy and Airbnb Clone.

****Weaknesses:****

- Limited experience in blockchain technology (web3).
- Lack of professional work experience in UI/UX design.
- No mention of skills in wire-framing, user flows, or graphic visuals.

****Profile Summary:****

Anubhav Raj is a skilled Software Developer Intern with a strong foundation in web development, UI/UX design, and database management. His internship experience at Vendantu demonstrates his ability to contribute to the design and development of user-friendly web applications. While his technical skills align well with the job requirements, his lack of experience in blockchain technology

ATS Evaluation

and limited professional experience in UI/UX design may present some challenges. To enhance his candidacy, it is recommended that he acquire basic knowledge of web3 concepts and showcase his UI/UX design capabilities through a professional portfolio or additional project work.
